ABOUT ME

As a final-year student pursuing a Bachelor's degree in **Software Engineering**, I have developed a strong foundation in various aspects of software development, with hands-on experience in both frontend and backend technologies. Currently, I am working on my final year project utilizing the MERN stack, which has significantly enhanced my problem-solving skills and ability to tackle real-world challenges. This experience has not only deepened my technical knowledge but also honed my ability to work effectively in a collaborative environment, preparing me for a successful career in the tech industry

EDUCATION

<u>Bachelors in Software</u> <u>Engineering</u>

GIFT University 2020 - 2024

<u>Intermediate in Pre-</u> <u>Engineering</u>

GIFT Group of Colleges 2018 - 2020

SOFT SKILLS

- Management Skill
- Presentable
- Communicator
- Punctual
- Teamwork and Collaboration

EXTRACURRICULAR

 President of Computer Science Student body Society at GIFT University named as Young Computer Professionals Society(YCPS).

CAREER OBECTIVES

My goal is to establish my own tech startup in Pakistan by using my skills in technology to make the leap to entrepreneurship. My aim is to create products that are strong and enhance my abilities in critical thinking and individualized learning. I will do this by focusing on creative solutions that meet the expectations of the growing marketplace.

FINAL YEAR PROJECT

My Final Year Project is supposed to be a collaborative learning platform that encourages interactions, knowledge sharing, and collaboration between students, instructors, and industry professionals. The goal of this learning platform is to create a vibrant learning community for the students of Pakistan. In order to ensure a reliable and scalable solution, I am developing it utilizing the MERN stack (MongoDB, Express.js, React, Node.js). My key contributions included comprehensive documentation of the project and the design of the backend architecture, ensuring robust and scalable performance to support user interactions and data management.

TECHNICAL SKILLS

- Programming Languages: JavaScript, Python, Java, PHP
- Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js
- Database Management: MongoDB, MySQL
- Tools & Technologies: GitHub, Visual Studio Code, Postman,
